

EXHIBIT C

Lilly Ana Oronoz Rodríguez, being first duly sworn, deposes and states as follows:

From February 2005 until March, 2006 I was the Deputy Director of the Puerto Rico Ports Authority.

During my tenure as Deputy Director, I received a telephone call from Mrs. Lizzy Maldonado, who I understood worked, at that time, as the scheduler of the Office of Governor Acevedo-Vilá. During said telephone call, and after mentioning that Mr. Luis Bared was a friend of the Governor, I was asked about the status of a pending matter regarding Mr. Bared's request that Centennial be allowed to visually inspect the Puerto Rico Telephone Company's ("PRTC") communication conduits located in the Luis Muñoz Marín's International Airport ("LMM") in order to assess the feasibility of providing Bared, and other possible clients, with an upgraded communication system.

In response to this inquiry I reported on the status of the request and expressed that the Puerto Rico Ports Authority was evaluating the request and coordinating an ocular inspection. In my view this inquiry was routine, and I did not consider the inquiry as any attempt by Mrs. Maldonado to influence my decision in any respect. Following this telephone call, I had no further contact with Mrs. Maldonado regarding this issue.

Moreover, during my tenure, I routinely received telephone calls and electronic communications from advisors to the Governor of Puerto Rico including, but not limited to, the Economic Advisor Mr. Gustavo Vélez, and others, with regards to the status of the Administration's programatic projects under the management of the Puerto Rico Ports Authority. In response, I would provide an update, either written or oral, about the efforts being carried out by the Puerto Rico Ports Authority and their current status.

Finally, during the time that I held my position, the Puerto Rico Ports Authority began efforts directed to eliminating or, at least, limiting, the commercial exclusiveness held by Empresas Santana, Inc. in parts of the Luis Muñoz Marín International Airport. With regards to this effort, I never received any instructions from The Governor of Puerto Rico or any of his advisors to halt our efforts and/or to protect Empresas Santana.

I met with officials of Empresas Santana on various occasions and was also involved in the evaluation of situations that related to said company. At no time, did a government official or advisor to the Governor attempt to influence my analysis or decisions.

I never received any instructions, directions or orders from the Governor, or anyone on his behalf, to take, or refrain from taking, any specific action regarding any matter whatsoever that was pending before the Puerto Rico Ports Authority, and I have never been influenced by the Governor, or by anyone acting on his behalf, with regard to any matters I was involved with as Deputy Director.

I believe it was on October 16, 2007, that I received a "Subpoena to Testify Before Grand Jury", ordering me to appear before said Grand Jury on October 22, 2007. On that same day, I was interviewed by FBI agents, Félix Alvarado and Christopher Starret. During my interview, I

answered truthfully and completely all the questions that were posed to me, including the matters that I have stated in this affidavit.

Following my interview, on the morning of October 22, 2007, I received a call from Agent Alvarado stating that he had verified with District Attorney Maria Dominguez and that my appearance at the Grand Jury that morning would not be required.
